

Tapping into Geothermal

How a cleaner and more efficient HVAC system can save money

Gabriel is offering a FREE seminar on the promise and economic return that geothermal technology offers to businesses and consumers.

Geothermal Energy is:

- Clean - emits little or no greenhouse gases
- Reliable - energy is available regardless of the weather
- Homegrown - making us less dependent on foreign oil

Come learn about the technology the EPA calls the most energy-efficient, environmentally clean, and cost-effective system for temperature control.

Where: 1421 N. Elston Ave
Chicago, IL 60642

When:

Wednesday, October 19th, 2011

8:15am - Breakfast & Registration
8:30am - Seminar begins
10:00am - Geothermal boring demo

Highlights include:

- What are the benefits of geothermal technology?
- How are geothermal systems installed?
- Cost comparison to traditional heating and cooling methods
- Information on other renewable energy sources
- Geothermal boring demonstration, plus see Gabriel's own solar and geothermal systems
